A SEAGULL IN GENOVA

The world's most important event on TC organized by the World Federation of Therapeutic Communities and by the Centro di Solidarieta di Genova was held last October 14 -18, 2010 at the historic Palazzo Ducale in Genoa, Italy.

Our very own Seagulls President and AFTC President, "Kuya Ed" Castillo joined more than 200 of the greatest specialists in the field who came together to discuss what is today the Therapeutic Community (TC) model and how it relates in the light of the present and future social changes.

The Therapeutic Communities of the 42 countries within the World Federation of Therapeutic Communities have a common objective that is to *"Help men and women become free from drugs, through attention to individuals, the group activities and family involvement"*.

This forum has by far, been one of the best if not the best forum ever, because of its very engaging and stimulating exchange of views and perspectives of TC from different context.

the caring community. more than a modality, a way of life.
